Most Recent Accreditation:	2024-03-27
Accreditation Valid to:	2028-03-27

Protected Mark

Product Certification Scheme:

ISO/IEC 17067, Conformity Assessment – Fundamentals of product certification and guidelines for product certification schemes, scheme type 1b most closely resembles the product certification scheme operated by this organization. This scheme type involves the certification of an entire batch of products, following selection and determination as specified in the scheme. The proportion to be tested, which can include testing of all units in the batch (100% testing), would be based, for example, on the homogeneity of the items in the batch and the application of a sampling plan, where appropriate. If the outcome of the determination, review and decision is positive, all items in the batch may be described as certified and may have a mark of conformity affixed, if that is included in the scheme.

Scope of Accreditation:

The scope of accreditation of the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
13.220.10	Fire-Fighting Including equipment and vehicles	Performance

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to Groupe Priorité Sécurité. The original version is available in the Directory of Accredited Product, Process and Service Certification Bodies on the SCC website at www.scc.ca.
