 Website: www.msvs.ca
 Email: ivarey@msvs.ca

SCC File Number:	10100
Accreditation Standard:	ISO/IEC 17065:2012 – Conformity assessment — Requirements for bodies certifying products, processes and services
Additional Accreditation Requirement:	SCC Requirements and Guidance – Product, Process, and Service Certification Body Accreditation Program, v5, 2021-09-21
Initial Accreditation:	2024-05-30
Most Recent Reaccreditation:	2024-05-30
Accreditation Valid to:	2028-05-30

CanadaGAP® Food Safety Program

Subject Areas of Accreditation:

Certification standard:	CanadaGAP Food Safety Manuals (version 10.0) CanadaGAP Program Management Manual (version 10.1)
Locations:	A

Certification indicates that the operation has a system of procedures to minimize the risk of contamination to product. The Certification Body certifies processes, not products. The auditor gathers evidence to attest to the ongoing maintenance of the food safety system, rather than simply gaining a snapshot at a given point in time.

For more information visit www.canadagap.ca.

Process Certification Scheme:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, *scheme type 6* most closely resembles the certification scheme operated by this organization. This scheme is mainly applicable to certification of services and processes. Although services are considered as being generally intangible, the determination activities are not limited to the evaluation of intangible elements (e.g., effectiveness of an organization's procedures, delays and responsiveness of the management). In some situations, the tangible elements of a service can support the evidence of conformity indicated by the assessment of processes, resources and controls involved. For example, inspection of the cleanliness of vehicles for the quality of public transportation. As far as processes are concerned, the situation is very similar. For example, the determination activities for welding processes can include testing and inspection of samples of the resultant welds, if applicable. For both services and processes, the surveillance part of this scheme should include periodic audits of the management system and periodic assessment of the service or process.

ICS No.	Title	Purpose
67.080.10	Fruits and derived products	Food Safety
67.080.20	Vegetables and derived products	Food Safety

Note:

The accreditation of MANAGEMENT SYSTEMS VERIFICATION SERVICES (MSVS) to certify products, processes and services is pending verification by SCC.

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to MSVS. The original version is available in the Directory of Accredited Product, Process and Service Certification Bodies on the SCC website at www.scc-ccn.ca.
