Email: jeanette traynor@aegisengineering.co.uk

SCC File Number:	06047
Accreditation Standards:	ISO/IEC 17020:2012 – Conformity assessment -- Requirements for the operation of various types of bodies performing inspection.
Additional Accreditation Requirements:	SCC Requirements and Guidance – Independent Safety Assessor for Railway Systems Accreditation Program 2021-03-19
Accreditation Sub-Programs:	Independent Safety Assessor for Railway Systems Accreditation Program
Initial Accreditation:	2023-11-03
Most Recent Accreditation:	2023-11-03
Accreditation Valid to:	2027-11-03

Additional Fixed Office Locations:

Refer to the legal entity location identified at the top of this listing. There are no additional locations included in this scope of accreditation:

Operation Type of Inspection Body:

ISO/IEC 17020, Conformity assessment — Requirements for the operation of various types of bodies performing inspection, Annex A Independence requirements for

inspection bodies, Type C most closely resembles the operation type operated by this organization. The inspection body shall provide safeguards within the organization to ensure adequate segregation of responsibilities and accountabilities between inspection and other activities; the design/manufacture/supply/installation/servicing/maintenance and the inspection of the same item carried out by a Type C inspection body shall not be undertaken by the same person. An exception to this is where a regulatory requirement explicitly allows an individual person from a Type C inspection body to undertake both the design/manufacture/supply/installation/servicing/maintenance and the inspection of the same item, as long as this exception does not compromise the inspection results.

Scope of Accreditation:

V: Independent Safety Assessor for Railway Systems Accreditation Program

Base program:	Independent Safety Assessor for Railway Systems Accreditation Program
Locations:	A
Scope of Accreditation	<p>The performing of independent safety assessments and issuance of an Independent Safety Assessment report for the application of the risk evaluation and assessment of railway system using the Canadian Common Method for Risk Evaluation and Assessment (CMREA) CSA R114, and the following EN standards: -</p> <ul style="list-style-type: none"> • EN 50126-1:2017 – Railway Applications - The Specification and Demonstration of Reliability, Availability, Maintainability and Safety (RAMS) Part 1: Generic RAMS Process. • EN 50126-2:2017 – Railway Applications - The Specification and Demonstration of Reliability, Availability, Maintainability and Safety (RAMS) Part 2: Systems Approach to Safety. • EN 50128:2011+A2:2020 – Railway applications – Communication, signalling and processing systems – Software for railway control and protection systems. • EN 50129:2018 – Railway applications – Communication, signalling and processing systems – Safety related electronic systems for signalling. • EN50657:2017 Software on board rolling stock

Note:

- The accreditation of AEGIS Certification Services Ltd to inspect Independent Safety Assessor for Railway Systems Accreditation Program is pending verification by SCC.
- Before full verification from SCC by witness audit, AEGIS may perform inspections as long as SCC is present. Inspection labels must not be applied to the inspected equipment without the presence of and agreement by SCC.

- The term “Inspection Body” is equivalent to “Independent Safety Assessor” for Railway Systems

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to AEGIS Certification Services Ltd. The original version is available in the Directory of Accredited Inspection Bodies on the SCC website at www.scc-ccn.ca
